Mobility devices weighing up to 350 lbs/ 159 kgs can now be transported with small or mid-size cars thanks to Bruno's patented Chariot. The Chariot is a lift on wheels with its own independent suspension to carry the load. Designed for safety and ease of operation, the Chariot's wheels spin 360 degrees to keep it precisely in line with your car. It's impossible to jack-knife!

- Power up/down platform with single button operation
- Adjustable platform fits most scooters/powerchairs
- Manual folding platform
- Easy drive on/drive off platform from either side
- Retractable self-tensioning belts with one-hand operation
- Compact design fits into most garages
- Industry-exclusive integrated safety latch prevents unintentional lift lowering
- Independent suspension; 360 degree swivel wheels
- Access rear hatch/trunk by slightly lowering platform
- Lighted license plate holder;
- Light package: running lights, brake lights, turn signals
- Manual emergency back-up
- Easily transfers to another applicable vehicle*
- Eligible for auto manufacturer potential rebates*
- Warranty: 3 year

* Contact Bruno dealer for details.
